

Zach Munro-Cape

WORK EXPERIENCE

MAY 2014 – AUGUST 2015

Orbis Access, Canada/Bermuda

Developer / Project Manager Intern

Conceptualized and created the 5th annual Orbis Challenge which had the highest student sign up and feedback scores than any year previous. Responsible for the curation of a platform and web performance testing stack. Defined the requirements and implemented an internal release tracking and compliance tool. Worked with a scrum team across the entire development stack.

C#/ASP.NET, Python, Java, Javascript/Angular.

SEPTEMBER 2012 – MAY 2014

New College, University of Toronto

IT Support Staff

Reduced downtime of lecturing equipment through creation and implementation of monitoring program. Assisted in a hardware upgrade across all departments. Routine support and maintenance for students and faculty.

SEPTEMBER 2012 – APRIL 2014

University of Toronto

Student Mentor

Organized and facilitated bi-weekly academic, social, and career development events for first year students in the Department of Computer Science.

LEADERSHIP

SEPTEMBER 2015 - DECEMBER

University of Toronto

Teaching Assistant

Led weekly tutorials ranging from MongoDB, to web security, to social coding and the advent of GitHub.

MAY 2013 - SEPTEMBER 2013

UofT Hacks

Hackathon Executive

Focus was on the day-of operations providing logistical support to the event involving hundreds of students from across North America at U of T for a completely student-led Hackathon.
